

---

**CD\_P line** (capacitive discharge, portable) – portable cylindrical excilamps located in common box with the power supply, cooling fan and reflector.

---

General view of CD\_P line excilamps.

<b>Operating molecule</b>	XeBr*
<b><math>\lambda</math> (max), nm</b>	283
<b>Box dimensions, mm</b>	80 × 80 × 60
<b>Consumption power, W</b>	≤ 50
<b>Radiant power, W</b>	≤ 2
<b>Radiant exitance, mW/cm<sup>2</sup></b>	≤ 20
